Function description

- 1-way flush-mounted blind/switch actuator
- Secure communication with support of „KNX Data Secure“
- For controlling drives for blinds, roller blinds, sun and vision protection devices, skylights, and ventilation flaps
- Integrated automatic ventilation function
- Flexible configuration options: blind actuator or 2-channel switch actuator
- 2 binary inputs for floating contacts such as buttons, switches, window contacts, temperature sensor (I2)
- The binary inputs are assigned to the output as standard (function test before programming)
- Integrated temperature monitoring for increased operating safety, e.g. in the event of overload
