Function description

- 1-way flush-mounted wireless actuator for electric heating 10 A, KNX RF, Data Secure •
- Easy installation due to the compact housing •
- Secure communication via with support of „KNX Data Secure“ •
- For direct connection of electric heating with high switching capacity •
- Integrated temperature controller can also be configured as an additional heater •
- Additional stage function for simple control of a second heat generator •
- 2 binary inputs for floating contacts such as buttons, switches, temperature sensor (I2) •
- Integrated temperature monitoring for increased operating safety, e.g. in the event of overload •
- The binary inputs are assigned to the dimming output as standard (function test before programming) •
