Function description

- Passive infrared presence detector, surface-mounting •
- 1 channel light (relay 230 V) and 1 channel presence (relay potential-free for HVAC control) •
- Circular detection area 360°, Ø 12 m (113 m²) •
- at 3 m mounting height
- Extension of the detection area by parallel switching, a maximum of 8 detectors can be connected in parallel •
- Networking with wall detector theMura Slave possible •

- Connection option for push-button for manual switching
- Operation as fully or semi-automatic possible
- One directional brightness measurement (mixed light measurement)
- Teach-in function, pulse function, test function, staircase lighting function
- Ready for operation immediately due to factory presetting
