Function description

- Flush-mounted 1-way blind actuator 5 A, KNX RF, Data Secure •
- 2 binary inputs for floating contacts such as buttons, switches, temperature sensor (I2) •
- For controlling drives for blinds, roller blinds, sun and vision protection devices, skylights, and ventilation flaps •
- Integrated automatic ventilation function •
- Secure communication via KNX-RF with support from KNX Data Secure •
- Easy installation due to the compact housing •
- 2 binary inputs for floating contacts such as buttons, switches, temperature sensor (I2) •
- Integrated temperature monitoring for increased operating safety, e.g. in the event of overload •
- The binary inputs are assigned to the output as standard (function test before programming) •
